07921 277443

Useful Careers Websites:

<https://nationalcareersservice.direct.gov.uk/> - the government website for careers information and advice

<https://careerboss.co.uk/> - a website providing career guides to different career areas

<http://www.ucas.com> - for university information and applications

<https://www.apprenticeships.gov.uk/apprentices/browse-apprenticeships#> - the government apprenticeship website

<https://www.careersbox.co.uk/> - videos to showcase many different career areas

<https://icould.com/> - videos and information on different career areas

http://www.lmiforall.org.uk/explore_lmi/ - a website which allows you to find out how many jobs in the UK are likely to be available in the future

CAREERS FOCUS

A Career using STEM?

Science, Technology, Engineering and Maths remain major areas of skills shortage in the UK. Students of these subjects are likely to have more career opportunities available to them in the future. As well as that, STEM subjects are fun!

For videos, activities, resources and ideas visit the STEM home learning page at:

Stem.org.uk/home-learning

Are you a Minecraft expert?

Want to develop your STEM skills?

Go to the website below and play along! Develop your skills in coding, engineering, problem solving and compete in competitions as you go.

skills-miner.enginuity.org
