Summer Term 1

The Painsley Way

Gospel Value - peace and tolerance

Catholic Social Teaching - promoting peace

Introduction from our Principal, Mrs Waugh

During the first half of the summer term, we have been reflecting on peace and tolerance (gospel values) and considering ways we can promote peace (Catholic social teaching). We can see these values at Painsley every single day in the way we interact with one another and look out for those who need it most. The Painsley Way and the message of peace is exemplified in Jesus as the prince of peace and his desire for us to follow in his footsteps. The message of peace has been important for our Year 11 and 13 students, who are now well underway in the examination series. It has been great to see their commitment and enthusiasm to do the very best they can, supported by our dedicated staff, who have walked with the students every step of the way. We continue to keep them all in our prayers.

At the end of this half-term, we say farewell to Miss Harris. Miss Harris has taught in the RE department for the last four years and has developed into a highly professional and committed practitioner. Her pastoral care of the students is exceptional and she is always willing to go the extra mile. We wish Miss Harris well as she begins a role as second in RE in another diocesan school.

I hope, as you read through the half-termly newsletter, you can grasp a glimpse of the amazing work taking place in our college every single day in order to support the students to know themselves and develop into the person God wants them to be. In the final half-term of the year, there will be so many opportunities for students to learn within the classroom and beyond and to explore their future destinations.

I wish you all a lovely half-term break.

God Bless

Mrs R Waugh, Principal

Drama Department News

Lyle Productions

The drama department welcomed professional production company Lyle Productions on 23rd April for a devising workshop and careers talk with Year 9 and Year 12 students. The award-winning production company had just finished a run of a performance, 'The Manchester Anthem', and students were lucky enough to work with the writer, director, actor and producer of the show. They provided a workshop which considered how a performance responds to music and delivered a talk on their different roles, as well as roles within the theatre which may be of interest to the students. One Year 9 student commented: *'It was helpful in giving us advice on how to better ourselves as performers and the other routes into theatre than just being an actor. It was interesting to see the different techniques which performers use in the rehearsal room as I never would have thought to use music like that but it was definitely helpful and we can take this forward into our devised work.'*

Year 12 devised performance

Year 12 completed their devised performance, which counts towards 40% of their overall A Level. Students were inspired by the work of Antonin Artaud (the pioneer of the theatre of cruelty) and applied this to their stimulus text 'Blood Wedding' by Spanish playwright Federico García Lorca. Students performed exceptionally well, conveying a highly emotional and disturbing performance.

Geography Department News

This has been a (relatively) quiet half-term in geography, with no field trips taking place during the first half of the summer term.

Students at both Key Stage 4 and 5 have been preparing hard for their public examinations, whilst in Key Stage 3 we have been looking at cold environments in Year 7 and tectonic hazards in Year 8.

We look forward with excitement to the next half-term, with the annual Year 10 residential trip to Cornwall on the horizon and a prospective trip to Dovedale for those remaining in college from Year 7 during activity week. Year 10 will also have one of their compulsory field work days at the River Dane in late June.

MFL Department

The final GCSE speaking exams were the culmination of much hard work from our Year 11 students this half-term. We were impressed by the resilience of all of our students on the day, managing nerves to show themselves at their best. We were incredibly proud of how well prepared they were, showing that dedication and hard work pays off in the end! We wish all of our Year 11 students continued success in their remaining German and Spanish exams.
With our Year 9 trips to Barcelona and Cologne fast approaching, the parent/carer information evenings at the start of this half-term were well attended by excited students and their families. Planned visits to chocolate museums, theme parks, world-famous monuments and museums and scenic cable car rides await our well-deserving students in July. As promised, all of the details shared on the evening are available to all students on Show My Homework. Further final details will be shared in a parent/carer letter after the half-term break.

Sociology News

This term, Year 13s have been gearing up for their exams, which began on Monday 22nd May. They have worked hard, partaking in plenty of exam practice and past paper questions. Ms Atherton has put on a Year 13 workshop in which students had a Paper 1 focus, with lots of useful advice and tips. Good luck, Year 13s!

Year 12 are steaming ahead with content and are about to start A2 topics. Students are working hard and are enjoying learning about the family and changing patterns.

We look forward to welcoming Year 11 students to our taster sessions in July. It is not too late to join us and embark on a sociology A Level. We are compatible with lots of different career paths and past students have gone on to enjoy careers in the police, social care, journalsim, law and many more! Please come and speak to Mrs Barlow or Ms Atherton for any further information.

Year 9 Scholars Programme
Manchester University Graduation Trip

14 students from Year 9 had the opportunity to visit Manchester University on Monday 15th May as part of the Scholars Programme graduation event with Mr Bradbury. During the visit, students took part in study skills sessions/reflection and enjoyed a tour of the university, as well as celebrating their success on the completion of the 2,000-word assignment on 'The role of horses in the great war', on which they were tutored by Dr J Flynn. They were also given the opportunity to ask questions and speak to current students and lecturers to give them an insight into university life at a Russell Group university. This was a fantastic experience for our students and well done to them all for their hard work and effort.

.

Maths Challenge

Maths students from the top two sets in Years 7-8 recently sat the UKMT Junior Maths Challenge (ukmt.org.uk/). Very well done to all of those students who took part and congratulations to those who obtained a gold (top 7%), silver (top 14%) and bronze (top 40%) certificate.

Business and Economics

Year 10 SME Business Event
On the 24th April, Year 10 business students took part in a consultancy morning with local business owners. The students were allocated to a business, whereby they interacted and gained an insight into the products/services being offered by these business owners. The students then went on to consult the business owners on challenges/problems they are currently facing. The Year 10 students then presented their solutions to the cohort at the end of the session. This event helped to develop the students' contextual business insight and expose them to the option of running their own business after college as an IAG route. All business owners thoroughly enjoyed the event and praised how mature and engaged all the students were. A huge 'thank you' to our Year 10 business students and to the business owners (Woods of Westgate, Sublime, Anya Parker James, Feasted UK, WebGoddess and The Golden Thread).

Chester Zoo Trip
On Monday 15th May, Year 10 business students were able to take part in a trip to Chester Zoo to take part in a marketing workshop. During this workshop, they learnt about how Chester Zoo decide what price they set admission tickets at, how they promote the zoo, such as the use of Facebook, Instagram and Twitter and how the Channel 4 documentary 'The Secret Life of the Zoo' brought in £24 million income for the zoo .

They also had discussions on how Chester Zoo use all of the land that they have to expand the habitats of the animals and also to rent some of the land out to farmers to produce goods, as well as how the products of the zoo were the main selling point of Chester Zoo to get admissions. During the day at the zoo, the students were able to walk around the zoo and see various different animals, such as giraffes, lions, penguins, jaguars and many more and were able to top their day off with an ice-cream and a walk around the gift shop at the end of the day.

English Department News

Successful 'Future Journalists' at Painsley

Painsley again swept away the competition at the 2023 Staffordshire University Future Journalist competition. Painsley achieved seven winning entries, with students in Year 9, 10, 12 and 13 winning awards for written articles, audio reporting and video blog entries. Winning students were treated to a ceremony at the Catalyst Building at the Staffordshire University campus, as well as being given a guided tour of the newsroom and fantastic journalism facilities that the local university has to offer. We are proud of the dedication and talents of our winning students, as well as the hundreds of fantastic entries that the competition received from Painsley. The school has many budding, talented writers, who are ready to transfer their English writing skills into the world of further and higher education as well as employment. Special thanks go to Miss Boon for leading the delivery of the competition at Painsley and for accompanying the winning students to the ceremony.

Psychology Update

We are lacking in photographs at this moment in time, as examination season is upon us and the Year 13s have been working extra hard cramming as much as they can for paper 1, which they sat on 19th May, followed by paper 2 on 25th May. The final paper is just after half-term.

The two Year 13 groups that I have taught this year have been absolutely amazing in class, full of enthusiasm for studying forensics, schizophrenia and memory. The last section of the specification is on psychological debates and this really has showcased what fantastic psychologists they have all become.

Special shout -outs to Heather Bell, Aiden Webb and Ruaidhrí Lynch, who have quite literally hijacked my very large whiteboard in my classroom in order to recap their knowledge. Oliver Booth, Dom Hallam and Elijah Beswick have taken to moving into the tech room for similar purposes.

I wish them nothing but luck and stamina as we enter the 2023 examination season.
Year 12s are just about to complete their last topic area of attachment in order to complete the AS specification and they are gearing up to embark on the UCAS process for 2023-2024 applications.
Miss L Dudley

History Department

It has been a busy half-term in history as we prepare our Year 11s for their coming GCSE exams. Students at both Key Stage 4 and 5 have been preparing hard for their public examinations, whilst in Key Stage 3 we have been looking at the Industrial Revolution and the Cold War.

Computer Science

Key Stage 5 – Virtual Reality Visit
Year 12 and 13 students taking A Level computer science, BTEC ICT and the digital T Level had the opportunity to visit a virtual reality centre. GameGrid VR in Hanley offers a wide range of virtual reality experiences using some of the most up-to-date technology in the field. Students had the chance to try the VR 'racing rigs', which offer the chance to drive a range of different performance cars in Project Cars 2. The rigs (pictured) give drivers the chance to feel the bumps and turns of the road via the feedback shaking in the seats themselves, feel the resistance in the steering wheel when turning corners and even feel the wind in their faces from the fans blowing wind at them during the race. It is a truly immersive experience, which really shows the future of video game VR technology.

Other experiences included the chance to use the VR 'flying rigs', which allow users to lie down and experience the sensation of flying around a race track. The 'full body VR rigs' are an amazing experience; students were strapped into a full body harness suspended above a platform which sensed where your feet were. This meant users could walk and run around the virtual environment using their physical bodies. Students also got to try their hand at competitive experiences, shooting futuristic weapons at each other in a range of arenas. You wouldn't believe how much the weight of the controller in your hand starts to feel like you are really holding a laser gun; your mind tricks you into believing it is real and is a true testament to the power of virtual reality.

A special mention must go to our fabulous sixth formers, who conducted themselves with the usual level of maturity, respect and consideration that we have come to expect from our students at Painsley. It was a huge amount of fun to spend the day with them.

Computer Science (continued)

GCSE and A Level Exams

I'm sure you will join me in wishing all our Key Stage 4 and 5 students the best of luck in their upcoming exams. Our department teaches a large range of subjects; it is our aim to provide as much choice and opportunity for our students as we can, but with this comes a large amount of assessment!

Our A Level and BTEC students have exams across June, with two 2.5 hour long exams, representing the culmination of two years of hard work for our A Level computer scientists. We wish them the very best as all have worked very hard over this time; some of our coursework projects for A Level were almost 60,000 words. It takes a huge amount of skill and dedication to complete work like this and reflects the excellent attitude from all.

Our Digital T Level students have just finished their huge, 67 hour occupational specialism and have produced some truly exceptional programs. These test a huge range of skills and in particular highlight the employability of the students that come out of our T Level qualifications. We also wish the best to our Year 12 T Level students sitting their core exams alongside their 15 hour employer set projects.

Our GCSE computer science and creative iMedia students are also sitting their final exams. Creative iMedia is an opportunity to finalise the already superb work completed on their coursework portfolios. We have some stunning projects this year, with some of the best distinction* work we have seen. Our GCSE computer scientists will be sitting two 1.5 hour exams, which represent the three years of hard work they have put into the qualification. We wish both sets of students the very best of luck!

GCSE ART AND PHOTOGRAPHY COURSES

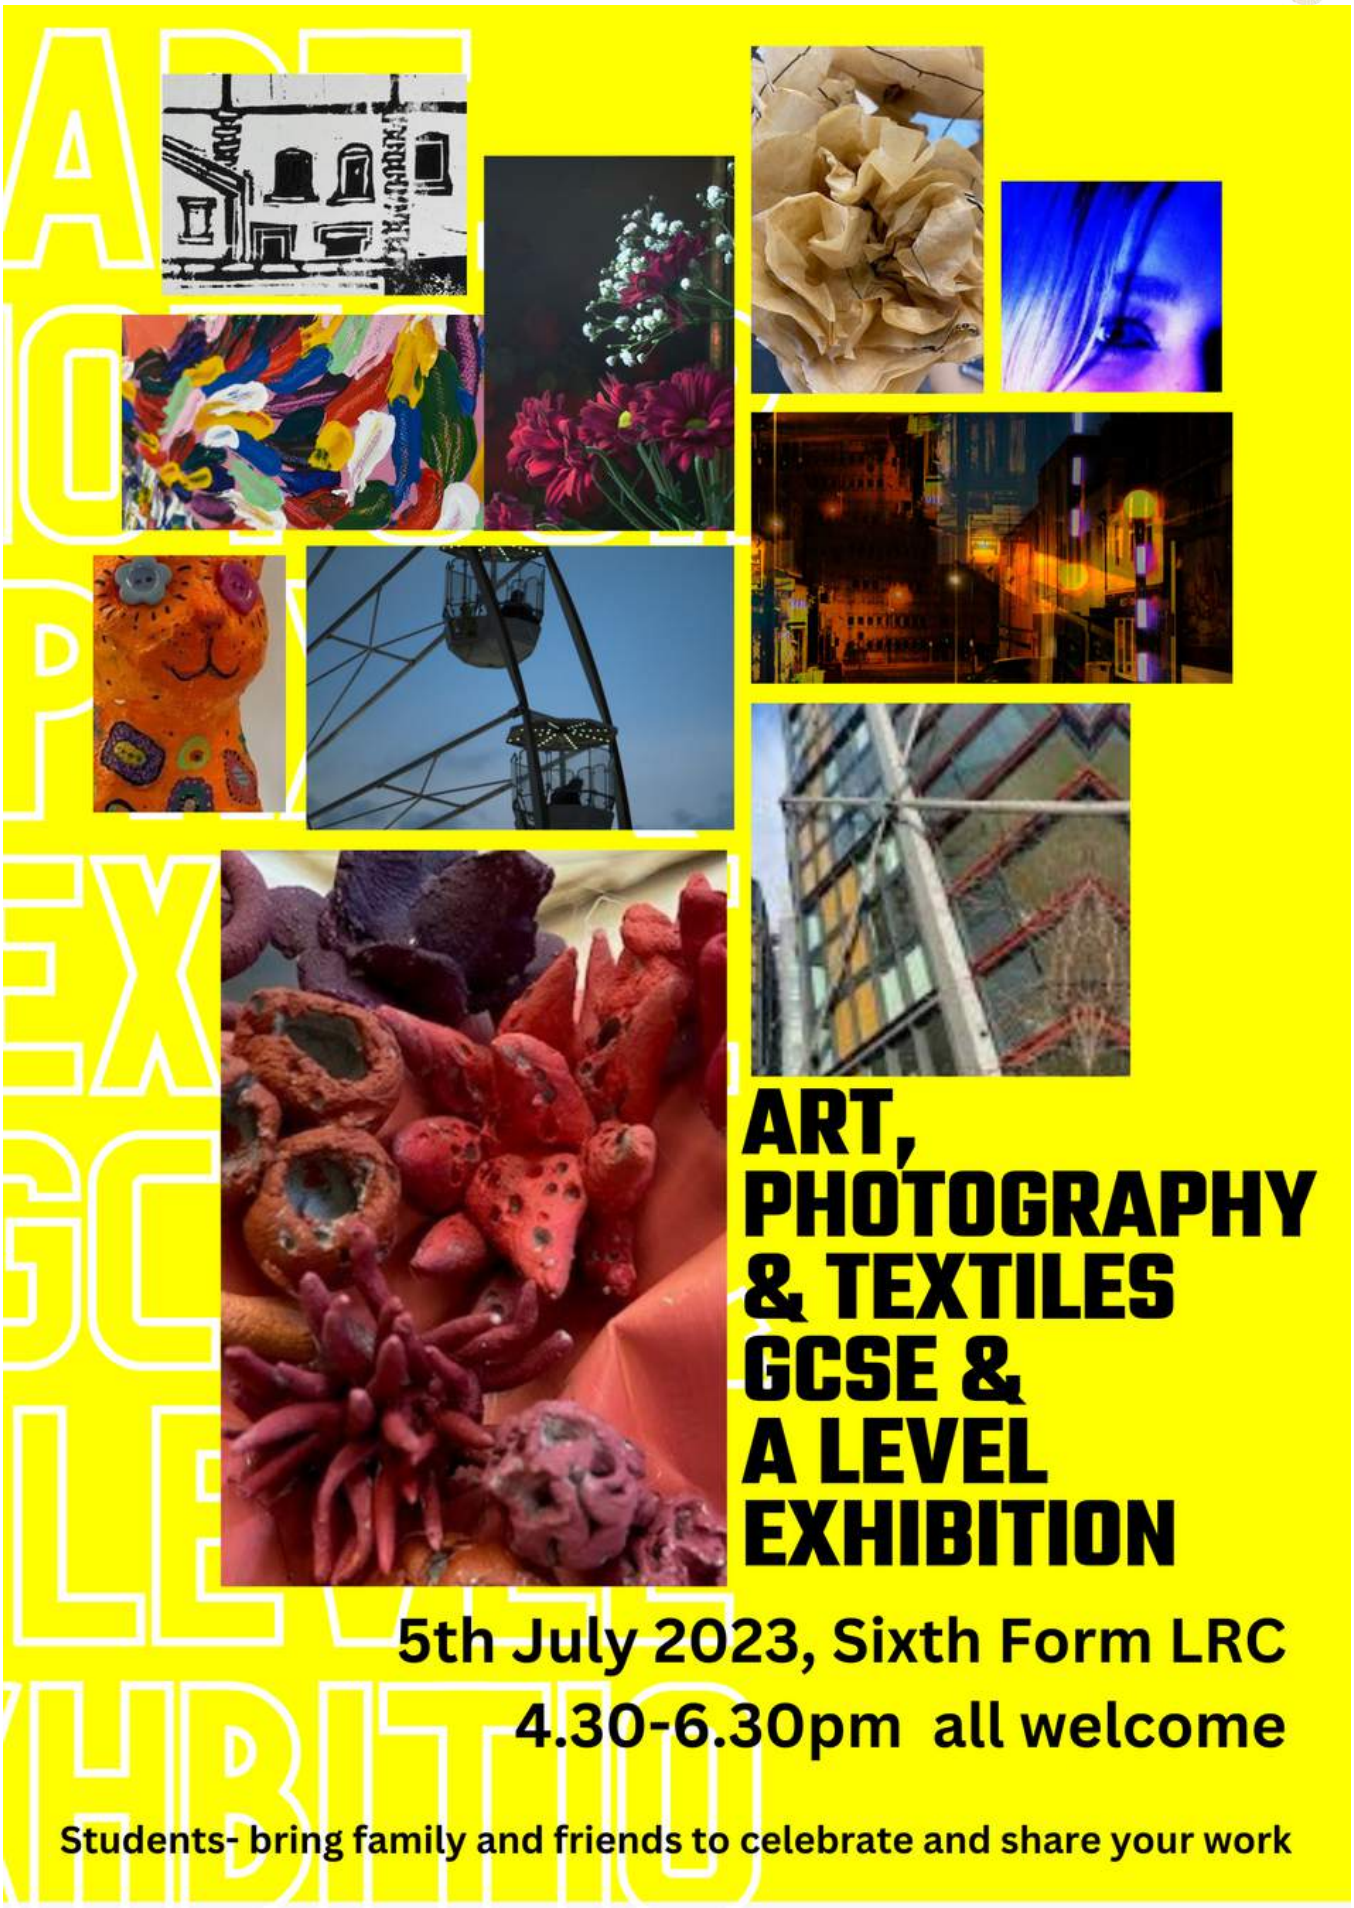
Congratulations to all our Year 11 art and photography students for their dedication and organisation during their 2 day examinations. We look forward to exhibiting this stunning work on July 5th in the LRC at Painsley Sixth Form building. Parents, family and friends - please come along and see how talented these young people are!

Amsterdam 2024

Art department staff are busy planning the educational visit to Amsterdam for May 2024. All current Year 9 art and photography students and Year 11 going on to study A Level art , textiles or photography are encouraged to take up this fabulous opportunity, which will support coursework marks and offer students an experience of the culture and art of this most cosmopolitan of cities. Email km@painsley.staffs.sch.uk to reserve your place.

INSTAGRAM

You can see lots of our students' art work if you follow us on painsley_ creativearts



ART, PHOTOGRAPHY & TEXTILES GCSE & A LEVEL EXHIBITION
5th July 2023, Sixth Form LRC
4.30-6.30pm all welcome
Students- bring family and friends to celebrate and share your work

RE and Chaplaincy News

Year 7
Our Year 7 students have been working very hard on their Parable of the Talents project as part of their RE studies. Their challenge was inspired by Jesus' Parable of the Talents and asked students to use their God-given gifts and talents to fundraise for CAFOD and the Lourdes Pilgrimage. So far, we have seen some fantastic projects – Lily completed a sponsored walk to the peak of Scafell, which raised over £20 and Daniel completed a sponsored swim, raising £150. Other projects have included bake sales, craft making and sporting activities. Well done Year 7!

In her reflection report, Lily said: 'I think this homework was a great opportunity to have some fun and I thoroughly enjoyed my visit to the Lake District and it may not have happened if this homework wasn't assigned! In total I raised £21, which was given to me from members of my family as they sponsored me to get to the top, which was very kind of them!'

7Y5 are currently studying Islam. Part of their studies involves learning about the mosque, its features and its importance. The class has made some excellent models of the mosque to help them understand the key features and its importance for Muslims.

RE and Chaplaincy News (continued)

Year 8
Year 8 have recently finished their topic of prayer and pilgrimage and will soon be learning about Judaism beliefs, teachings and practices.

Year 9
Our Year 9 students are now learning about Judaism beliefs, teachings and practices. They have been working hard to understand the key Jewish beliefs, use sources of wisdom and authority and understand the Jewish practices and festivals. Some students have created Mezuzahs as part of their understanding of prayer in the home.

Year 10
Year 10 are currently studying the Church and the Kingdom of God topic as part of their GCSE course. They have been learning about the importance of pilgrimages and Stations of the Cross. Some of our students will be going on the pilgrimage to Lourdes in the May half-term and have the fantastic opportunity to experience a pilgrimage themselves.

Year 11
Year 11 have been working very hard in the run up to their GCSE exams. They sat their paper 1 exam on Monday 15th May and their paper 2 exam on Tuesday 23rd May. Keep up the hard work, Year 11!

Continuous contribution to the community: Jessie
At the recent Painsley Presentation Evening, Year 13 student, Jessie, who is currently studying philosophy and ethics at A Level, received the award for 'Continuous contribution to the community'.

Jessie has helped and supported the RE department throughout both her time at Painsley Catholic College and the Sixth Form. She has been a fantastic mentor for younger students, giving up her time to represent the department at Prospective Parents' Evening and helped to plan the party for the Friends of Painsley. She even gave up her evening to go shopping for the party! As well as giving up her time to help, Jessie has also taken on the massive task of completing her philosophy and ethics course in one year. She has worked diligently and with enthusiasm to complete the course. The RE team consistently comment on her hard work, exemplary attitude and perseverance. Jessie is a fantastic ambassador for the college; she works extremely hard, she is a great role model to the younger students and always gives up her time to help and support.

Well done, Jessie, and thank you from the RE department!

RE and Chaplaincy (continued)

The Chaplaincy Crew

This month, several of the Year 9 chaplaincy crew were invited to St. Thomas' primary school for St Thomas' vocations day. The students led a liturgy workshop for KS2, KS1 and reception classes. The students prayed the rosary and led the primary students in a worksheet and reflection during this month of our Blessed Lady. St. Thomas' students were fantastic and the chaplaincy crew really enjoyed sharing the day with them.

Lourdes Preparation Day: 29th April 2023

Several of our sixth form students attended the Lourdes Handmaid and Brancardier training day at St. Francis of Assisi's college on Saturday 29th April.
The day was run by the Lourdes pilgrimage hospitality team.
There were several workshops that the students attended - CPR training, manual handling training, wheelchair assisting training and general work duties and responsibilities. The students had a fantastic day, meeting and working with other volunteer students from schools all over the Birmingham diocese.
We are all very much looking forward to the pilgrimage next week.

PAINSLEY
KNOW YOURSELF
WHOLE SCHOOL MASS
29 June 2023.
2pm
Celebrating the feast of St. Peter and St. Paul for all students.

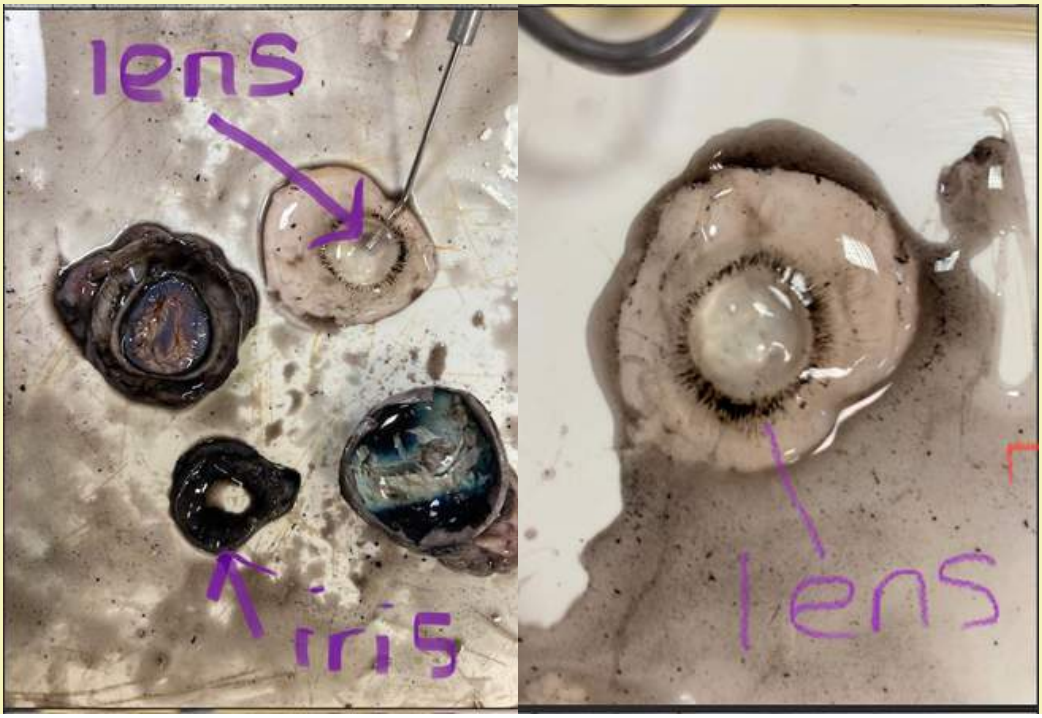
Science Department

Year 8

Students in Year 8 have enjoyed getting hands-on and extracting DNA from a strawberry this half-term.

Year 10

Year 10 GCSE biology students conducted an eye dissection, looking at the structure of the lens and how it focuses light. They also looked at the iris muscles and how they contract and relax to adjust the size of the pupil, in the reflex response to dim and bright light.



Design and Technology

This half-term marks the final completion of Year 11 and Year 13 coursework in the design and technology department. For the first time since COVID we have been able to see project work right through to the completion of finished prototypes. The quality of work is outstanding and we look forward to being able to share photos once the grades are published next term! Year 10s will be starting their D&T coursework next half-term.
Year 9 and 10 students have had the opportunity to talk with Apprentices and managers from Barkers Engineering to gain information on possible apprenticeship routes to follow post 16. The apprentices spoken brilliantly on why they thought the apprenticeship route was best for them. They were all enjoying both their work and their studies and making excellent progress.
Year 8s have been working in teams to create wind turbine structures to reinforce their learning on forces and triangulation.
On June 26th we will be running a STEM 'rocket day' when we will be hosting a rocket road show for Years 7-10 and Year 7s will be building and racing model rocket cars. Parents and carers will also be invited to watch the rocket show which will run after school. More details will follow, including times and sign-up details for the after-school show.

Duke of Edinburgh Awards

Well done to Tom and Zoe Barnes on completing their Duke of Edinburgh Awards, which were presented at a special event at Buckingham Palace. It was a lovely day and the first time Prince Edward has hosted as the Duke of Edinburgh.
We are very proud of Tom for achieving Gold and Zoe who recently completed her Bronze through the air cadets.
Congratulations!

Painsley Awards Evening

Painsley's annual Presentation Evening was held on 26th April, with Mr S Bell (Chief Executive Officer) as the Guest of Honour,who presented the awards. Over 140 students received awards on the evening.
Awards were presented for:
The Voluntary Service Award, sponsored by the Cheadle Lions Club and presented by Mr A Hornsby, President of the Cheadle Lions Club
The Peter Harry Lowe, JP Duke of Edinburgh Challenge Award, presented by Mrs M Annies, LLM, BA (daughter of the late Mr Lowe)

Year 7 to 10 received Outstanding Attainment and Progress certificates
Year 11 received Subject Awards, Outstanding Effort certificates and special awards
Year 13 received Special Awards

Mrs P Sowter (Lay Chaplain) and William Simpson (recipient of the Faith in Action Award – second year running)

Amelia Wood (recipient of the Drama Subject Award)

Poppy Rees (recipient of the Textiles Subject Award)

Sophie Robinson (Senior Girls Sports Shield recipient), Mrs L Wright (Subject Lead for PE), Edward Mayne (Senior Boys Sports Shield recipient) and Lucy Smith (Senior Girls Sports Shield recipient)

PE and Sports News

Congratulations to Evangeline Lymer, who represented Team England in the World Championships in April. Evangeline is now a World Silver Medalist! What an achievement!

Y7 Football

The Year 7 football team have completed the league and cup double after beating Woodhouse Middle School this week.

They convincingly beat Woodhouse 8-0. The team played some fantastic football against a good opposition. A special mention to Monty, Harry, Oliver, Max, Alfie and Riley who were the goal scorers.

The Year 7 team also won the district cup, beating Moorside 5-1 in the final! It was a fantastic performance from all involved, with Oliver Colclough and Oliver Yates getting a goal each, but a special mention goes to Harry Bonehill who scored a hat trick!

The Year 7 football team have been outstanding all season, scoring over 50 goals, and conceding just one in eight games. Well done to everybody who has played a part this year!

PE and Sports News (continued)

Outdoor Athletics
We enjoyed a great day at the Staffordshire Moorlands Outdoor Athletics event in May.

Year 7 Girls
Team result – Painsley finished 3rd overall

Year 7 Boys
Individual result – Isaac finished 2nd overall, Oliver narrowly missed out on 3rd place so finished 4th overall.
Team result – Painsley finished 1st overall

Junior Girls (Years 8 and 9 combined)
Individual result – Isla finished 3rd overall
Team result – Painsley finished 2nd overall

Junior Boys (Years 8 and 9 combined)
Individual result – Riley finished 2nd overall
Team result – Painsley finished 3rd overall

Swimming
Five Painsley students represented Cheadle Swimming Club at the West Midlands Regional Swimming Championships at the Alan Higgs Centre 50m pool in Coventry over the last two weekends. It's a massive achievement to achieve the times required to compete at this high level and not only did they compete, but some reached the final and even won medals. The pupils were George Ferneyhough, Jacob Oakes, Brogan Milward, Max Mottram and Ethan Walker.

District Athletics
This half-term also saw the Year 9 and 10s competing in the district athletics qualifiers at Denstone College. All the students performed brilliantly and represented the school exceptionally well.
Nine schools were involved and the standard of performers was very high but we are pleased to announce that Painsley were the overall winners!
A number of students won their individual events, which means they have qualified for the county qualifiers.

Term time holidays

The Painsley Catholic Academy
Better Together

We believe that exceptional communication skills enhance the spiritual development, life chances and opportunities of all in our community

SCHOOL AND PARENTS NEED TO WORK TOGETHER

WE AGREE

Every child is entitled to the very best education and attending school is not optional.

CONSISTENT MESSAGING WORKS BEST

WE UNDERSTAND

Holidays are more expensive during the school holidays but a good education is priceless.

38 WEEKS IN SCHOOL; 14 WEEKS 'HOLIDAY'

WE NEED TO BE AWARE THAT ACTIONS SPEAK LOUDER THAN WORDS

By removing your child from school, you are not re-enforcing the message that education is very important and attending school is not optional.

THE IMPACT OF MISSING SCHOOL

DID YOU KNOW?

For every day of school missed - it takes 3 days to catch up on what was missed. Being absent from school can lead to children feeling disconnected from their peers and missing out on valuable social interactions.

SCHOOL AND PARENTS NEED TO WORK TOGETHER

WE NEED YOU TO HELP ENSURE YOUR CHILD GETS THE EDUCATION THAT THEY DESERVE.

Improving attendance by only 1% can mean a 5-6% increase in grades.

Let's give our children the best chance at success and support their personal and educational journey by maximising attendance!

We are better together.

PE and Sports News (continued)

Finally, congratulations to Carter Inskip-Clarkson on his recent victories at the Daniel Ricciardo Series Round 2 at Llandow Kart Circuit.

Carter was great throughout the whole event, very focused and calculated in all his overtakes and moves to achieve the results below.

Qualifying P1
Heat - 1st in DRA CLASS
Pre-final - 1st in DRA CLASS
GRAND FINAL- 1st in DRA CLASS and finished 3rd in DRS62 Super/Academy against the unrestricted engines.

Carter is currently leading the DRA Driver championship in 1st place & 3rd in overall DRS62 Drivers.
Well done!

PAINSLEY PTA

Your PTA needs YOU!

Why?

The PTA organises many events throughout the year to fundraise for the College to ensure our students benefit from extra resources. Events have funded a new College minibus, memory sticks, refurbishing the dining room and provided financial support for the College lockers.

How?

One of our main fundraisers is the monthly PTA draw. At just £5 per month, please consider joining the draw, which is paid by direct debit or you can pay annually - £60 per year.
Your membership will help all of the students at Painsley and could win you a lot of money.

£5 to enter

Top Prize £250!

Monthly draw
